# EXPERIENCES

TDI Consulting and its staff have implemented many projects in the public sector relating to governance, strategic development, public administration reform, public finance management, socio-economic development plan, monitoring & evaluation; and the strategic management, business planning in the private sector. Many of our experts have been teaching in post-graduate programs in well-known institutions such as the National Economics University, Academy of Finance, CFVG, Vietnam – Netherlands Cooperation Program, etc. These are highly practical training programs that require instructors to have experiences in dealing with practical issues, especially those relating to public service delivery reform.

## We have experience in implementing projects as bellows:

**Medium and large-size projects with the participation of many stakeholders:** Projects with the involvement of agencies at central and local levels including Department of Planning and Investment, Department of Health, Department of Construction, etc.

**Large-scale sociological researches/surveys in a short period of time:** We have conducted a number of researches/surveys in 10 provinces/cities with the subjects of organizations and

**Consulting/Research/Survey on a variety of topics** such as land management, land dispute resolution with multi-actor approach, education, health, etc. and even some sensitive issues

**Evaluation of projects/ programs:** mid-term, end-term and impact assessment

**Training on different topics for strategic management, system management for subjects including:** public finance management, planning and budgeting skills, monitoring and evaluation, business planning, management skills, etc. with experiential and learner-centered learning method.

# Several implemented projects namely

Time	Project	Client	Activities
MONITORING AND EVALUATION			
4/2024 ongoing	- Baseline study of CARE in the Strive Women VN (CVN) project		<p>Strive Women will directly improve the financial health of W-MSEs by increasing business growth and financial resilience while also catalyzing replication of the model through strategic engagement and influence. As part of the project design, the project plans to undertake a comprehensive baseline study for establishing status of the key indicators concerning the core components of the project.</p> <p>The specific baseline objectives are:</p> <ul style="list-style-type: none"> <li>• To capture the baseline values of Strive women project committed results against the logframe for the two different segments (including Women entrepreneurs who exposed to IGNITE interventions and Women entrepreneurs who newly engaged in the Strive women interventions);</li> <li>• To assess the business related challenges/obstacles and the specific needs of targeted women entrepreneurs in terms of financial access needs and wrap-around support to contribute to their business growth.</li> </ul>

Time	Project	Client	Activities
4/2024 ongoing	- Review reports of the “Leveraging Viet Nam’s Social Impact Business Ecosystem in Response to COVID-19” project (ISEE COVID project) and update the project’s indicators for monitoring and evaluation system	CARE in VN (CVN)	<p>The ISEE COVID project, with sponsorship from Global Affairs Canada, is co-implemented by UNDP and Agency of Enterprise Development (AED), Ministry of Planning and Investment. The project aims to enhance the resilience of social impact businesses (SIBs) in Viet Nam and contribute to reducing the impact of COVID-19 on vulnerable groups, especially women and girls.</p> <p>The objectives are: Peer Review the White Books and Report on SIB Supporting ecosystem in Vietnam (Vietnamese and English versions) and update data for the project M&amp;E System from the project’s raw reports.</p>
3/2024 ongoing	- Gender analysis of the program “Reaching The Furthest Behind - Improving the Quality of life for particularly disadvantaged communities (FbF) (2023-2028)”	Plan International Vietnam	<p>The FbF program (2023-2028) is sponsored by the Irish Embassy in Vietnam and implemented by Plan International Vietnam, CARE International in Vietnam, and the Center for Research on Initiatives of Community Development (RIC). The FbF program invests in three main areas: micro-infrastructure construction, operation, and maintenance; women’s economic empowerment; and disaster risk management in communities and schools. Vulnerable groups, including people with disabilities, are the key target groups of the Program. The gender analysis in the program’s implemented areas (including Hoa Binh, Quang Tri and Ha Giang province) is conducted to develop relevant interventions for each province.</p>

Time	Project	Client	Activities
